PROJECTS

Hiring Search Tool. Built a tool to search for Hiring Managers and Recruiters by using ReactJS, NodeJS, Firebase and boolean queries. Over 25000 people have used it so far, with 5000+ queries being saved and shared, and search results even better than LinkedIn! ([Try it here](#))

Short Project Title. Build a project that does something and had quantified success using A, B, and C. This project's description spans two lines and also won an award.

Help support website. Built a free website for the "Hands of Hope" NGO foundation, with features like Chat system, mental health resources and stress tests. This website was selected as one of the top 3 projects in "Haul it away", an annual hackathon.
